Proyecto Modelado "AlsaPlane":

En este proyecto tenemos dos subsistemas:

- Gestion_Compañia.
- Gestion_User.

También tenemos dos actores:

- Administrador.
- Cliente.

Primero explicaremos todo el "Use Case View":

Gestion_Compañia:

El diagrama de casos de uso:

Los diagramas de secuencia y de actividad de los anteriores casos de uso son:

AccederSistema:

AdminInvalido:

AdminValido:

GestionarAviones:

CrearAvion:

EliminarAvion:

ModificarAvion:

Diagrama de actividad:

Gestionar reservas admin:

Consultar Reserva:

Eliminar reserva:

Modificar reserva:

Gestionar trabajadores:

Añadir trabajador:

Eliminar trabajador:

Modificar trabajador:

Gestionar vuelos:

Crear vuelo:

Eliminar vuelo:

Modificar vuelo:

Gestion_User:

Diagrama de casos de uso:

Los diagramas de secuencia y actividad son:

Acceso cliente:

Login:

Registrar cliente existente:

Registrar cliente no existente:

Diagrama de actividad:

Gestionar datos:

Modificar datos:

Gestionar reservas cliente:

Crear reserva cliente:

Eliminar reservas cliente:

Modificar reservas cliente:

Visualizar vuelos:

VisualizarVuelos:

Mapa de navegación:

Ahora empezamos con el "Logical View":

La Base de Datos de "AlsaPlane":

También hemos realizado la vista lógica y de componentes de "Gestionar Aviones":

Vista Lógica:

Vista de componentes:
